

Optimised Digitalisation

Innovate, Empower, Scale and Protect Your Business

The World of Digital Transformation Awaits

Scaling New Heights – constantly and consistently. That's what our clients are empowered to achieve and we love being a partner in their growth journeys.

With ever changing needs and constant evolution of market complexities, business leaders are constantly exploring ways to REACT, RE-THINK and RE-STRATEGISE in order to strengthen their RESILIENCE factor and future-proof their businesses. It is not surprising that many business leaders are bringing forward plans on DIGITAL TRANSFORMATION, with many adopting ENTERPRISE RESOURCE PLANNING solutions. As a result, we empower our clients with Real Time Data, enabling them to seize benefits of Robotic Process Automation as well as Management Dashboards and Analytics to keep close tabs on performance metrics anytime, anywhere.

AM8ZE customised ERP Suites for SMEs and large organisations are data management tools that allow viewing and sharing of data to optimize and automate basic business operations. Forming the backbone of our ERP solutions is our Finance Management Module. One of the best and user-friendly Accounting solutions you can find in the market, AM8ZE Finance Module has received IRAS' certification and is listed on IRAS Accounting Software Register (ASR). Simply put, AM8ZE Finance Module meets the principles and technical requirements laid down by our local tax authority, and beyond. AM8ZE Finance Module has also incorporated InvoiceNow, facilitating the sending and receipt of E-Invoices via the PEPPOL network readily and seamlessly

As your business grows, shifts in the organizational structure may be accompanied by complex interconnections across departments and functions. Data residing in silo-ed single function modules becomes increasingly difficult to aggregate and analyse. AM8ZE ERP then offers tools that allow business

owners and stakeholders to data, insights and intelligence across functional ERP modules including but not limited to:

- Web Front
- Finance
- HR
- Sales
- CRM
- POS
- eCommerce
- Inventory Management
- Purchasing Management
- Project Management
- Event Management
- Membership Management
- Document Management

Connecting data and pushing them into a central Data Vault is our business. We are passionate about facilitating meaningful extraction, aggregation and organisation of such data to curate insight critical for smart business moves.

AM8ZE Solutions are Seamless, Simple to use, Scalable and Secure. Guided by our proprietary Functional, Agile and Reliable (F-A-R) Framework in the design, development and deployment stages of our feature-rich customised ERP solutions, our solutions range from small and mighty SaaS solutions for SMEs to bespoke solutions tailored for larger enterprises. Hence, it is easy to associate AM8ZE's comprehensive, well thought-out and efficient solutions with Fast, affordable and easy to implement.

By going digital, we empower businesses with greater speed and efficiency through optimised operational workflows and enhanced collaboration, hence fuelling growth and realising infinite possibilities for our clients.

IT is that Simple. Think Boost, Think AM8ZE.
