What We Offer

We are one of the leading suppliers of coated media and processed papers, films, and inks for the printing industry. The name Dreamway is synonymous with providing customized solutions for individual customers at the most competitive prices. We are proud of our experience, our profound technological expertise, and tailor-made innovations to take care of your critical printing requirements. We have sourced our products from the best-in-the-field manufacturers so you get the best quality to stay ahead of the competition. Providing the latest technological advances to our customers as an affordable investment is our constant corporate goal.

IMPACTFUL QUALITY- EXCEPTIONAL PRINTERS

Epson's experience lies in designing and manufacturing precision instruments for printing hardware, and building our extensive knowledge of high quality printing. All of this know-how has gone into the development of the SC-S large format printer series - designed from the ground up, with every component developed and manufactured by Epson. We've put our expertise into the SC-S Series, so you can expect precision, quality, and added productivity with every print.

About us

Welcome to Dreamway!

We are one of the leading suppliers of coated media and processed papers, films, and inks for the printing industry. The name Dreamway is synonymous with providing customized solutions for individual customers' at the most competitive prices. We are proud of our experience, our profound technological expertise, and tailor-made innovations to take care of your critical printing requirements. We have sourced our products from the best-in-the-field manufacturers so you get the best quality to stay ahead of the competition. Providing the latest technological advances to our customers as an affordable investment is our constant corporate goal.

We are open to ideas from our customers and deliver individual solutions tailored to meet every demand, need, and requirement of the customer and our employees are our strength

We are well-equipped to supply a large range of products and applications from large format indoor & outdoor printers and media for inkjet and screen printing, to laminates, tapes, corrugated materials and vinyl, to coated papers and films. We also supply printing inks for all kinds of printing technologies – pigment, dye, solvent, eco-solvent, latex and screen-printing.

Dreamz Indoor & Outdoor Printing Media

Made in Japan, Dreamz inks are very high in density and purity which ensures smooth running for ink-feeding thereby minimizing clogging for print-heads and extending their durability.

Dreamz inks have low odour, complying with EU environmental regulations. As it has high colour density, you can save up to 50% ink consumption, making it most suitable for applications like back-lit printing. There is no miss-firing of inks and no head clogging and prints dry quickly, obviating the need for lamination. Outdoor durability runs up to 3 years without fading.

Dreamz Inks come in Dye, Pigment, Latex, Solvent & Eco-solvent variants

Dreamz Inkjet Media for Indoor & Outdoor Printing

Dreamz is one of the leading brands in the UAE for coated papers, films, and textiles, tailor-made for individual customer. Our sales and technical teams come with several years of experience and sound technological knowledge to ensure great prints. Dreamz inkjet media are suitable for large format inkjet or laser printing, thermal papers & labels, corrugated packaging materials, films, fabric and vinyl for industrial
